OBJECTIVE

Aspiring data professional with a good foundation in web development and a deep interest in data science. Passionate about problem-solving and continuously improving my analytical skills. Currently working on web projects while preparing to transition into the data field. Seeking guidance and opportunities to refine my skills further.

PROJECTS

- Personal Website – Designed and implemented a responsive website using HTML & CSS.
 - Xypo Website – A more advanced and refined website project.
 - Animation Project – Experimented with animations using HTML & CSS.
 - Web Portfolio – Showcased personal projects with clean UI/UX.
-

ANALYTICAL & PROBLEM-SOLVING SKILLS

- Applying structured problem-solving approaches in development tasks.
 - Actively learning and applying new technologies in self-initiated projects.
 - Committed to transitioning into data science through continuous skill-building.
-
